Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- Species I according to figure 1 quadrants I and II;
- Species II according to figure 1 quadrants III and IV;

(Examiner notes that it is unclear as to which embodiment(s) the remaining figures are intended to be directed since there is no correlation between the figures 2-5 and the embodiments shown in the quadrants of figure 1 clearly shown in the drawings or described in the specification. Examiner also notes that figure 1 shows four different embodiments encompassed under one figure number.)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 3683

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

- * Species I according to claims 9, 10, 11, 12, and 17-20;
- * Species II according to claim 13.

Claim 14 appears to be directed to figure 4 and claims 15 and 16 appear to be directed to figure 5; however, it is unclear to the Examiner whether or not figures 4 and 5 represent axial views of one of the embodiments set forth in the quadrants of figure 1 or if figures 4 and 5 are intended to represent different embodiments.

The following claim(s) are generic: none of the claims are generic since it is unclear as to which species figures 2-5 are directed.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Species I is directed to a cylindrical sleeve with stop elements and rubber spring elements and Species II is directed to an undulating sleeve with stop elements, rubber spring elements, and troughs on the undulating sleeve also serving as stop elements. Quadrant IV of species II also includes a thin rubber layer in addition to the undulating sleeve limitation. As evident from the above discussion, Species I and II lack the same sleeve arrangement between the mass body and the propeller shaft tube.

3. The claims are deemed to correspond to the species listed above in the following manner: A telephone call was made to Richard L. Mayer on 9/2/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3683

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melody M. Burch whose telephone number is 703-306-4618. The examiner can normally be reached on Monday-Friday (7:30 AM-4:00 PM).
